

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: Navitas Organics
Date Submitted: November 30, 2018

Disclosure Industries	Yes	No
Please indicate if the company is involved in production of or trade in any the following. Select Yes for all options that apply.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY:	Navitas Organics
UPDATED AS OF:	November 30, 2018
DISCLOSURE QUESTIONNAIRE CATEGORY	Product Recalls
ISSUE DATE	May 2014 and May 2016
TOPIC	Voluntary Product Recalls
SUMMARY OF ISSUE	Navitas Organics experienced two voluntary product recalls that were classified as Class I recalls by the FDA. In May 2014, ingredients within Navitas Organics' Sprouted Chia Powder product were brought to the attention of the company by the CA Department of Health for possible health risks related to Salmonella. In May 2016, ingredients within Superfood+ Nut Bar products were brought to the attention of Navitas Organics by the supplier who produced the product for possible health risks related to Listeria.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	<p>"In May 2014, the recalled product represented 2.7% of overall production across the company's products during the reporting period. There were a few reported consumer illnesses related to this product.</p> <p>In May 2016, the recalled product represented 0.6% of overall production across the company's products during the reporting period. There were no reported consumer illnesses."</p>
IMPACT ON STAKEHOLDER(S)	<p>"Salmonella food poisoning typically causes nausea, vomiting, and diarrhea - sometimes with fever. Other symptoms may include headache, abdominal cramps, and loss of appetite.</p> <p>Listeria food poisoning typically causes diarrhea, nausea, achy muscles, and fever. For those with weakened immune systems, listeria food poisoning can be more serious with signs of headache, stiff neck, confusion, loss of balance, and convulsions. "</p>
RESOLUTION	Both products were voluntarily recalled by Navitas due to the potential health risks associated with Salmonella and Listeria.
IMPLEMENTED MGT PRACTICES	<p>"In both cases, upon learning about potential issues, Navitas changed its suppliers of the affected products. The company has a formal supplier screening process which defines the standards and methods used to approve and maintain suppliers.</p> <p>Required documents to conform to the approved supplier program are:</p> <ul style="list-style-type: none"> - Supplier Questionnaire Request Form (outlines company information and practices) - Food Safety and Quality Systems - Annual 3rd Party Food Safety Audit - Allergen Statement - Product Description Information - Specification Sheet - MSDS - Nutritional information - Lot coding Description - Process flow charts - Organic Certification - Canadian Organic Regime Equivalency - Gluten Free Certification or statement, if required - Kosher Certification - Non-GMO Verified Certification, if required - Fair Trade Certification, if required"
