

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: **Limite Vertical**
Date Submitted: **03/30/2018**

Disclosure Industries	Yes	No

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY:

Limite Vertical

UPDATED AS OF:

03/30/2018

<p>DISCLOSURE QUESTIONNAIRE CATEGORY</p>	Other Disclosure
<p>ISSUE DATE</p>	2016-present
<p>TOPIC</p>	Business with oil & gas company clients
<p>SUMMARY OF ISSUE</p>	<p>Limite Vertical has been in business since 2016, and since then has worked primarily with clients in the oil and gas industry, providing support services through social and environmental consultations and assessments, and project evaluations of their clients business activities.</p>
<p>SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)</p>	<p>Oil & gas company clients represented the majority of Limite Vertical's revenue generating activities until 2018.</p> <p>In 2016 their sole client and 100% of revenue came from an oil & gas company in Colombia - Petróleos Sud Americanos Sucursal Colombia. Limite Vertical conducted a social & environmental impact assessment of the wastewater emissions from the oil company's oil production plant in a sensitive area of the Amazon river basin, the Charter River. The aim of the assessment was to demonstrate to the local community that there would be no negative impact to the community or to the watershed from the company's project. The outcome of the review determined that the wastewater would be of better quality than the river water and would have no negative effects on the ecosystem.</p> <p>In 2017, Limite Vertical was working with Pacific Midstream Limited, a subsidiary of a natural gas company, also providing social and environmental consulting services. This represented almost 80% of revenue in that year.</p>
<p>IMPACT ON STAKEHOLDER(S)</p>	<p>The impact of these activities would be with the communities and the ecosystems where the company's oil & gas clients are situated, should their control & risk management systems fail and result in some negative environmental impact . Until now, we are not aware of any negative outcomes related to these projects, supported by Limite Vertical.</p> <p>However, the negative impact of the oil and gas industry, in general, is of great concern and importance in relation to the future of climate change around the world.</p>
<p>RESOLUTION</p>	<p>Since Limite Vertical is a young business, still in development, this type of client will continue to be a part of their client portfolio in order to help fund their other projects. However, with the growth and development of the Limite Vertical, it will be important no longer rely on revenue generated from clients with such negatively impactful activities.</p>

IMPLEMENTED MGT PRACTICES
REPORT
OTHER MANAGEMENT COMMENTS
RELATED INCIDENTS (YES/NO)

Since Limite Vertical is still a young company, these clients made up the majority of revenue to date. However, the company has entered into a partnership with Bancolombia in mid-2017, which will represent the majority of their revenue over the next several years.
