

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: CIANO Alimentos Sustentáveis Ltda.

Date Submitted: 1/24/2017

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: **Ciano Alimentos Sustentáveis**

UPDATED AS OF: **01/24/2017**

CATEGORY	Environmental Practices
ISSUE DATE	n/a
ISSUE DESCRIPTION	Company's facilities are located in sensitive ecosystems: Ciano Alimentos Sustentáveis operates in an environmentally protected area and harvests ingredients from endangered plant species.
SUMMARY OF ISSUE	Ciano Alimentos Sustentáveis is located in Serrinha do Alambari, an environmentally protected area. Serrinha do Alambari is part of the Mata Atlântica forest located on the coast of Brazil and is known for its rich biodiversity of flora and fauna. Mata Atlântica has historically been an area of deforestation.
IMPACT	Ciano Alimentos Sustentáveis also sources the main ingredient of its products from an endangered species of Potential negative environmental impact
RESOLUTION	n/a
IMPLEMENTED MGT PRACTICES	According to the Brazilian law, the environmental licensing happens by means of an Operating License (LO) given by the municipal environmental agency (AMAR - Agência Ambiental de Resende). The approval process took 3 years and required a temporary license, granted when the environmental studies were first presented. An installation license was then granted and authorized to build and install the factory and equipment. After an onsite audit by the agency and the approval of the facilities, the Operating License was obtained and factory operations started.
REPORT	Ciano Alimentos Sustentáveis has a product seal (RBMA) that certifies sustainable sourcing from the Mata Atlântica Forest. The RBMA seal is issued by the Atlantic Forest Biosphere Reserve Institute. This seal requires n/a
OTHER MANAGEMENT COMMENTS	agency only requires it when there is some change in process in the APA (Area of Environmental Protection). Their latest update happened in 2016.
RELATED INCIDENTS (YES/NO)	n/a
