

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE CATEGORY	Cannabis-derived products
ISSUE DATE	N/A
TOPIC	Topical skin products containing CBD
SUMMARY OF ISSUE	Inesscents Aromatic Botanicals sells topical skin salve products with CBD (cannabinoid), which is a non-psychoactive compound derived from organically grown hemp. The company sources its CBD oil from a supplier in the Netherlands, and it is made from agricultural hemp that is lawfully imported.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	Sales in the previous fiscal year accounted for less than 5% of the company's revenue.
IMPACT ON STAKEHOLDER(S)	Current regulations governing the legality of cannabis-derived products are complex in the United States due to different layers of federal, state, and local laws. Thus, the legal landscape around such products, particularly CBD, is somewhat ambiguous at this time. There are many companies that do legally CBD products, which are designed to be non-psychoactive. While the risk of criminal prosecution may be low or negligible, B Lab encourages consumers, retailers, and manufacturers to conduct their own research based on individual circumstances to determine the legality of certain cannabis-derived products in one's jurisdiction.
RESOLUTION	N/A
IMPLEMENTED MGT PRACTICES	Inesscents manufactures only topical CBD products and is careful not include medical claims on labels, or in media / marketing outlets. The company also conducts routine quality assurance to ensure the correct CBD content is present in the products.
