

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

In all 3 cases there are discrepancies of criteria (due to interpretation or due to change in the initial criteria given by the Tax Authorities): first case in terms of Kw computation for a local tax, second case in terms of sponsorship for the computation of the Corporate Income tax credits related, and the third case in terms of the deduction of some management fees expenses invoiced by the company's headquarters in Paris.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	These three cases in aggregate would represent ~18 million EUR in additional tax payments, 480,000 EUR in fines,1.8 million EUR in interest expenses. Some of these payments are still being disputed in court.
