

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE	Disclosure Industries
QUESTIONNAIRE	
CATEGORY	
ISSUE DATE	June 2019
ТОРІС	Disclosure Alcohol
SUMMARY OF ISSUE	La Société Des Vieux Copains manufactures two brands of beverages, one of which is an alcoholic beverage used as an aperitif.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In the previous fiscal year, 36% of revenue was earned from the sale of alcohol.
IMPACT ON STAKEHOLDERS	Alcohol may have negative impacts on the health and well-being of individuals and their communities
IMPLEMENTED MGT PRACTICES	Folle Envie is most of the time enjoyed as a cocktail called La Folle Envie, for this, you just add to Folle Envie aperitif a dash of tonic (ideally Archibald, the company's tonic). This cocktail is 100% organic, 100% French and above all at 7% ABV maximum. This cocktail is easy to prepare and low in alcohol. It is in the heart of the brand strategy and is one of the key point of the brand success. Moreover, our company aims at subscribing adult beverages to a better, responsible and enthusiastic world. So we work on non-alcoholic brands for adults and alcoholic brands but always with a particular focus on alcohol level and on sensible drinking way (low-alcoholic cocktail).
