

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE CATEGORY	Disclosure Outcomes & Penalties
ISSUE DATE	
TOPIC	Significant Layoffs
SUMMARY OF ISSUE	We are a small start up with limited resources and experience. By its very nature, startup ventures require constant pivoting and lots of trial and error. There is a lot of risk. We have missed payrolls over the years. We've started down the wrong paths time and time again trying to figure out how to solve this extremely complex problem. There have been layoffs and sometimes people have chosen to quit because of the instability. This is the nature of the startup beast. It took us over three years before our product started to succeed and begin to gain traction and credibility in the industry we're serving. In 2015 we had 15 employees and had to lay off 7 of them at one time. It was a hard choice but it was the right decision for us as a company. Those same employees remain close to the company and committed to our long term mission of finding sustainable ways to support journalism.
SIZE/SCOPE OF ISSUE	In the past five years we have laid off 10 people in four different rounds or at four different times - seven of them happening at once. The other three were individual situations.
IMPACT ON STAKEHOLDERS	Only those who were laid off and their families. But again, none of the people laid off missed a beat. With the exception of a couple of people over the years all of them were among our top paid employees and members of the 1%.
IMPLEMENTED MGT PRACTICES	Yes. As our company has matured and our mission has become clearer, we have become much more stable and able to better understand how to hire and place people within our company in more sustainable ways.
RELATED INCIDENTS Y/N	No
