

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Public.

UPDATED AS OF: July 31, 2019

DISCLOSURE QUESTIONNAIRE CATEGORY	Sensitive Industries
ISSUE DATE	
TOPIC	Company with ties to prison industry
SUMMARY OF ISSUE	Public's "InHouse Records" program helps prisoners develop technical skills and core competencies in music and music production.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	100% of Public's revenue from the last fiscal year comes from the delivery of InHouse Label sessions to high risk prisoners
IMPACT ON STAKEHOLDERS	Public. measures the recidivism rate of the prisoners in their program and in the last year 0% of their prisoners returned back to prison after completing the program.
REPORT	https://www.public-hq.com/inhouserecords
OTHER MANAGEMENT COMMENTS	InHouse Records is 100% designed for the benefit and transformation of the prisoners. InHouse Records is a rehabilitative programme that operates in and out of UK prisons. Our aim is to reduce the re-offending rate. InHouse takes the tasks associated with a functioning record label and turns them into a soft curriculum. We recognise that operating in a prison might be seen as a controversial sector, however, we are providing a service for the prisoners that is transformative and are not using the prison service as a labour force.
