Toxin / Pollution Reduction Overview Points Earned: of 0.00000

Tell us more about how your product or service reduces use of toxic or hazardous substances, prevents pollution or remediates discharges to air, land or water

We source organic raw materials (green coffee). We purchased a Loring Roaster for sustainable purposes, which reduces 80% of greenhouse emissions. Our 12oz and 6oz bags are also made of compostable material to reduce waste.

Toxin / Pollution Reduction Description Points Earned: 0 of 0.00000

Which of the following product or service descriptions apply?

The answer to this question affects questions you'll encounter further on in your assessment.

- ☐ Product minimizes need of toxic chemicals compared to market alternatives (non-GMO)
- ☒ Product/services use less toxic/hazardous chemicals or materials than market alternatives (i.e. non-toxic cleaners, organic food, integrated pest management for agriculture)
- ☐ Product/service remediates environmental damage after discharges to air, land or water (i.e. brownfield remediation, oil spill clean-up)
- ☐ Product/service directly prevents pollution or hazardous discharge (i.e. pollution management technologies)
- ☐ These descriptions do not apply to our company's product/service (Skip the remainder of this section)

Is there something different or innovative about the company's basic product or service that has changed the industry? Is this something that is replicable, unique at the time that it was created, and that has been emulated by other organizations?

We utilize the Biotre material developed by Pacific Bag, Inc for our 12oz and 6oz bags. This is newer to the market, and we were told by Pacific Bag that we are the first company to integrate a block bottom bag, resealable zipper, and compostable material into one bag. This material is available to any coffee company if they are willing to pay a little extra for the compostable material. Pacific Bag, Inc. has done a great job of creating, developing, and continuing to innovate in regards to the compostability of their Biotre line. We are currently reevaluating our packaging to see if there are even more sustainable solutions that would allow our customers to more easily compost or biodegrade the packaging material.
