Disclosure Report

Date Submitted: February 20th, 2025

## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

### B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

## Disclosure Questionnaire Category: Other - Clients in Controversial and Ineligible Industries

**Reos Partners** is currently involved or has had involvement within the last five years in providing services and/or products to companies in the following industries considered controversial or ineligible by B Lab Global: Fossil Fuels Production.

While products and services provided to these clients could serve only as commonplace goods and services, by serving these clients, the company may be supporting these industries. B Lab recognizes that these industries potentially have negative impacts; therefore, Certified B Corps are required to make their involvement in such industries transparent.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).
