## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	<p>Locate Productions is a service production company producing stills and moving image content for the digital advertising industry.</p> <p>The company has had clients in the Alcohol and Charity Lotteries industries which are deemed controversial by B Lab. The services provided to the clients in the industries mentioned relate to providing locations for advertising campaigns and providing location management services for commercial shoots.</p> <p>The same services provided to the clients can be sold to clients in different industries, including other non-controversial and controversial industries.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	<p>In the fiscal year 2024, the company had earned 0.0098% of total revenue from the charity lotteries industry. The company last provided its services to clients in the alcohol industry in the year of 2023 and had earned 0.0005% of total revenue for the year from the industry.</p>
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	<p>Locate Productions is committed to not working fossil fuel companies and airline brands as the company deems these particular industries to be most harmful to the environment.</p> <p>The company makes a judgement on all campaigns that they would potentially engage with. Locate Productions assesses what industry the potential clients serve in and what the ad</p>

	campaign message is promoting and what impact that could have on the society and the environment. The company attempt to assess the potential clients' sustainability practices (or the presence thereof) and what if any commitment they have to net zero.
<b>Management Comments</b>	<p>One of the key challenges Locate Productions face is having a reliable and trusted resource that provides clear information in order for it to make a decision on what work it accepts. Briefs come from a wide range of clients, often through 3rd party agencies and decisions need to be made within short time windows of hours / poss a day and without a dedicated in-house dept and no industry provision decisions are made based on anecdotal and easily found information.</p> <p>These decisions also need to be made in line with the financial situation of the business and existing pipeline. In a sector that is project based rather than retainer / contract based it makes decision making of what work to do significantly harder.</p> <p>Locate Productions are committed to exploring potential avenues for sourcing such a resource that could be used across our industry and sector.</p>
