## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

### **B Lab's Public Complaints Process**

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

**This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.**

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Clients in Controversial Industries	
<b>Topic</b>	Clients in Controversial Industries
<b>Summary of Issue</b>	<p>Deminor Recovery Services provides litigation funding services, allowing a claimant to pursue claims through litigation or arbitration. The company pays all legal costs and does not receive any remuneration or return unless the case is successful, and the claimant achieves a recovery. In the event of a recovery, the company receives a share of the proceeds. If the case is unsuccessful, the funder loses its money, and nothing is owed by the claimant. Subject to regulatory restrictions in certain jurisdictions, Deminor as funder may also offer litigation management &amp; support services in conjunction with litigation funding.</p> <p>The company has provided its funding for clients in the Alcohol, Fossil-Fuel (including coal/oil sands), Mining, and Pharmaceutical industries, which are deemed controversial by B Lab.</p> <p>The same services provided to the clients can be sold to clients in different industries, including other non-controversial and controversial industries.</p>
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	<p>The company has yet to earn any revenue from the clients deemed controversial as of October 2024, as all of the cases are ongoing and have yet to reach a resolution. Deminor would not earn any revenue from a client until a litigation is closed in favor of its client.</p> <p>The company's capital invested in each of the controversial industries for the year of 2024 are ;</p> <ul style="list-style-type: none"><li>• 0.9% for its client in the alcohol industry</li><li>• 0.1% for its client in the fossil-fuel industry</li><li>• 3.2% for its clients in the mining industry</li><li>• 5.4% for its clients in the pharmaceutical industry</li></ul>
<b>Impact on Stakeholders</b>	Companies that work with clients in controversial industries can indirectly increase the harmful impact on stakeholders by

	<p>enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue, and new standards will be created to address possible risks related to this matter.</p>
<b>Implemented Management Practices</b>	<p>Deminor currently does not have a formal position on working with particular sensitive industries or a policy to move away from them.</p> <p>The services provided by the company enable clients to seek justice through a litigation claim, regardless of the industry.</p> <p>The company has a due diligence and compliance process, which includes "Know Your Customer" (KYC) activities and conflict checks on potential clients. The processes ensure that the clients meet Deminor's ethical requirements and values.</p>
