Disclosure Report

Date Submitted: August 20th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement	
Topic	Clients in Controversial Industries
Summary of Issue	Unitary Engineering Services provides heating maintenance and plumbing services and has served clients operating in the Alcohol, Water Utilities and Prison industries over the last 5 years. Services to the prison industry were through a third party construction company with a direct relationship with the prisons. The company is no longer serving this industry. Services sold by Unitary Engineering Services can be sold to both clients in controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In FY2022, Clients in controversial industries represented the following % of the company's revenue: <ul style="list-style-type: none">• Clients in the Alcohol industry- 0.45%• Clients in the Water Utilities industry- 6.80%• Clients in the Prison Industry - 0.16%. The company no longer serves this industry.
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	<p>Unitary Engineering Services does not currently have a position on working with clients in controversial industries. The company makes efforts to responsibly navigate working with clients in sensitive industries and claims to where necessary transition away from partnerships that do not align with their ethical standards or social commitments.</p> <p>The company carries out a due diligence process when considering new clients or projects including evaluating whether to ensure they align with their ethical standards and business</p>

	<p>values. Unitary Engineering Services evaluate various factors, including the client’s reputation and financial stability. Additionally, they review the potential project’s impact on their resources and alignment with the strategic goals. The aim of the company's due diligence process is to mitigate risks, maintain high standards of service, and ensure that they engage in projects that are beneficial for both their company and clients.</p> <p>Unitary Engineering Services follow a comprehensive Code of Ethics within their CSR policy including a commitment to compliance with relevant laws, a zero-tolerance policy for corruption, bribery, and unethical practices as well as a whistle-blower protection mechanism for employees and stakeholders to report unethical behavior or concerns without fear of retaliation, ensuring a culture of accountability. This policy also outlines the company's social and environmental commitments.</p> <p>The company also ensures their services are not used to cause harm by complying with safety and environmental regulations and hold certifications from recognised bodies such as CHAS Elite and SafeContractor (see links below). In addition, Unitary Engineering Services have developed comprehensive safety policies (see Health and Safety policy link below) and conduct regular training programs to update their team on industry standards and best practices.</p>
