Disclosure Report

Date Submitted: December 16th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Business in Conflict Zones

Topic	Company has suppliers located in Conflict Zones.
Summary of Issue	<p>The company imports diverse goods from conflict zones, and sells them through its website and retailers. They source products from conflict zones such as Afghanistan, Yemen, DR Congo, Burkina Faso, Myanmar and Niger.</p> <p>The conflicts in these regions are characterized by social, political, and economic unrest, making them challenging environments with disrupted economies.</p> <p>The company sources in those locations to create economic opportunities and income in conflict-affected countries. By sourcing from these areas, warfair aims to contribute to job creation and economic stability in regions facing challenges due to conflicts.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	<p>Percentage of Purchases from Each Conflict Zone (Last Fiscal Year 22):</p> <ul style="list-style-type: none"> - Yemen: 48% - Afghanistan: 34.7% - DR Congo: 6.1% - Burkina Faso: 7.8% - Myanmar: 0.3% - Niger: 3.1%
Impact on Stakeholders	<p>Business activities located in conflict zones can contribute to jobs, income and stability but are considered high-risk as they can also cause or contribute to the conflict and/or sociopolitical instability.</p> <p>Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations can be at risk.</p> <p>warfair carries out due-diligence for each partner and product and publishes the results transparently on www.warfair.world to mitigate these risks.</p>
Implemented Management Practices	<p>The imports from DR Congo are certified by Rainforest Alliance, and those from Burkina Faso are certified Fair Trade (FLOCERT). However, there are no certifications available for products from Afghanistan or Yemen, Myanmar and Niger.</p>

	<p>The company reported for due diligence for all companies, utilizing questionnaires, references, internet searches (including in local languages), visits, or video inspections where possible, where each company undergoes approval by our Ethics Committee, and a comprehensive public record of all information is maintained on their warfair database at: see (Report) section. The due diligence process includes inquiries and follow-ups on aspects such as "do-no-harm" principles, links to conflict actors, anti-corruption measures, and social/environmental/workplace considerations. The questionnaires are available for reference on: see (<i>Report</i>) section.</p>
