

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: Scalora Holdings, LLC, DBA Scalora Consulting Group
Date Submitted: 10/10/2022

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Scalora Holdings, LLC, DBA Scalora Consulting Group

UPDATED AS OF: 10/10/2022

DISCLOSURE QUESTIONNAIRE CATEGORY	Clients in Controversial Industries
TOPIC	Clients in Pharmaceutical Industry
SUMMARY OF ISSUE	Scalora Holdings provides project management services for their clients in the Pharmaceutical Industry related to Real State services. They support clients on projects only to assist in permitting the projects through local, state, federal agencies.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	The company's revenues from client(s) in the pharmaceutical industry are about 8%.
IMPACT ON STAKEHOLDERS	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.
IMPLEMENTED MGT PRACTICES	The company does informally pre-qualify its clients. It works to understand the nature of its client's businesses and the facilities they are building and evaluate whether their values, and known actions, match the company's values. Fundamentally, Scalora is not interested in working for clients that create toxic environments in which they live, work and how they conduct themselves, and products they produce.
