Disclosure Report

Date Submitted: April 10th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Disclosure Industries

Disclosure Questionnaire Statement	
Topic	Clients in Controversial Industries
Summary of Issue	Winkler Partners provides legal services to companies working in industries considered controversial to B Lab, such as bottled water, alcohol, fossil fuels, and tobacco. Specifically, the company provides services limited to brand protection, intellectual property matters, and general commercial legal matters for the Taiwan market.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The company reported earning the following % of its annual revenue in 2022 from those controversial clients: <ul style="list-style-type: none">● 0.58% from the bottled water industry,● 1.44% from the alcohol industry,● 0.64% from the fossil fuels industry,● 1% from the tobacco industry.
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact on stakeholders of those businesses by enabling their business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>Certified B Corps are required to make transparent their involvement with such clients. B Lab recognizes that the company began its verification process prior to B Lab developing standards for Clients in Controversial and Ineligible Industries, and, therefore, the company will be required to meet the new standards by their next recertification.</p>
Implemented Management Practices	While they continue to handle IP protection matters for existing clients, they no longer accept new clients in the tobacco or fossil fuel industries. Their firm remains committed to responsible business practices by undergoing a thorough review to manage the potential impact and risks of their work.
