

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: Gousto
 Date Submitted: July 7, 2021

Industries & Products	Yes	No
Please indicate if the company is involved in production of or trade in any the following. Select Yes for all options that apply.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY:

Gousto

UPDATED AS OF:

July 7, 2021

DISCLOSURE QUESTIONNAIRE CATEGORY	Customer Protection
ISSUE DATE	2020
TOPIC	Advertising complaint made regarding company's product recyclability claims.
SUMMARY OF ISSUE	In 2020 the company promoted their Eco Chill Box as having been made with no plastic and that the entirety of the box was recyclable. Grocery Delivery E-Services UK Ltd raised a claim with the UK Advertising Standards Authority based on the idea that consumers would think the recyclability of the Eco Chill Box included the ice packs inside that are made with low density polyethylene plastic packaging. The ASA decided to uphold the claim.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	High: The Eco Chill Box was advertised in this manner to all customers. No fine was issued.
IMPACT ON STAKEHOLDERS	Misleading advertising.
RESOLUTION	The company agreed to change all future marketing to comply with CAP Code by not stating that their products and packaging were plastic-free, widely recycled, or 100% recyclable where they contained components that did not meet those criteria, such as the ice packs.
IMPLEMENTED MGT PRACTICES	Updated marketing for future Eco Chill Boxes. https://www.asa.org.uk/rulings/sca-investments-ltd-a20-1072977-sca-investments-ltd.html
RELATED INCIDENTS (YES/NO)	No.
