

PKF Octagon Inc.

Disclosure Report

Date Submitted: August 12th, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category:

During its B Corp Certification journey, **PKF Octagon Inc.** had the following topics flagged:

- **Litigation or Arbitration**

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Tax Advisory Services

The current B Corp Certification assesses a company's risk (potential negative impacts) separately from its positive impacts. B Lab's risk standards are additional minimum requirements that companies in controversial industries and/or practices must meet in order to be eligible for B Corp Certification under V1.6. Risk standards are a necessary method to maintain credibility, manage risk, and achieve the impact B Lab seeks in the world.

PKF Octagon Inc. is directly involved in the Tax Advisory Services Industry; an industry which B Lab requires additional minimum standards. During this assessment, it was confirmed that PKF Octagon fully meets the minimum requirements for the Tax Advisory Services as outlined in the [Guidance for Eligibility Concerns and Minimum Requirements under V1.6](#) link.

The company's advice is based on the actual facts, commercial activities and operations of each client and that PKF Octagon does not provide advice intended to artificially shift profits away from jurisdictions where value is created, revenues generated, personnel located or operations conducted. PKF Octagon is proud of our status as a Certified B Corp. As part of that commitment and in recognition of the role that taxes play in contributing to a healthy society, we use our professional judgment to provide advice regarding tax positions with multiple potential interpretations that accurately reflects the income and operations of the client in each jurisdiction for which the client seeks our advice based on the details of the client's income and operations provided to us, and do not advise clients to take a position unless we believe it has at least a reasonable basis for being sustained by applicable tax authorities. If a client takes a tax position despite our advice to the contrary, we reserve the right to stop work for and terminate such client. In accordance with this tax philosophy, we engage with government and tax authorities on a collaborative basis and limit our advocacy activities with such authorities to (a) work for specific clients in need of regulatory compliance assistance and (b) providing financial support which advocates for the interests of the accounting industry as a whole (which may sometimes include limited tax advocacy). We maintain compliance with this policy through regular training of our employees and partners, internal policies on conduct, engagement documentation with our clients, and client retention reviews.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

1. Intentional misrepresentation of practices, policies, and/or claimed outcomes during the [certification process](#), or
2. Breach of the core values articulated in our [Declaration of Interdependence](#) within the B Corp Community.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial and Ineligible Industries

PKF Octagon Inc. is currently involved or has had involvement within the last five years in providing services and/or products to companies in the following industries considered controversial or ineligible by B Lab Global: Mining, Pharmaceuticals.

While products and services provided to these clients could serve only as commonplace goods and services, by serving these clients the company may be supporting these industries. B Lab recognizes that these industries potentially have negative impacts, therefore, Certified B Corps are required to make their involvement in such industries transparent.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).
