

2025 Wholesale Catalog

Welcome to the wholesale edition of bambu® 2025

Since 2003 we have helped people live more sustainably by designing and offering the highest quality products made from renewable and organic materials.

What we do

bambu® makes high quality, original designed cooking, eating and serving utensils, tableware, and related products entirely made from plant-based, renewable materials.

You won't find bambu® at the big box stores. We steer clear of commodity type products. Instead, our focus is on quality, functionality and design you won't find just anywhere.

Smart packaging, or even better...no packaging at all

We are introducing fresh new packaging that sells harder with a smaller footprint. We're working to remove every bit of plastic from our packaging. Our most popular items are also available without packaging.

Carbon Neutral Certified

bambu monitors and commits to reduction initiatives and offsets 100% of carbon emissions.

B Corp™ certified business is good business

bambu is a leader of a global movement of people using business as a force for good™. We meet the highest standards of overall social and environmental performance, transparency and accountability and aspire to use the power of business to solve social and environmental problems. Good business for you and your customers.

Certified

Bambu® is part of the global movement for an inclusive, equitable, and regenerative economic system.

Our Story	46

Inspired by Nature

*Cork, Bamboo, Hemp, Organic Cotton
& More*

Locally Sourced

At bambu®, it all begins with the materials we use. Our renewable and organic materials are sourced locally in China and not generally found in abundance in North America.

Renewable Ideas®

Sustainable Solutions

Sustainable Bamboo

Why Ours is Different

We learned years ago that all bamboo is not the same. A lot of factors influence the quality of the material.

The source of our bamboo is the core of the 'bamboo belt' in Eastern China, where the largest bamboo forests in the world grow.

Forest Stewardship Council® Certified

bambu® uses FSC® certified 100% bamboo to make our kitchen utensils, kids utensils, cutting boards, and Veneerware® dinnerware. FSC® certification guarantees that our bamboo is sustainably harvested, making it safe for the planet, safe for the farmers who gather it for us, and safe for you and your family.

Organic Textiles

Our carefully sourced natural fabrics are certified organic or made with renewable, linen-like hemp.

6

Hemp/Organic Cotton Blend

It is grown without pesticides, is mildew resistant and anti-microbial making it an excellent fiber for use in the kitchen, on the table or outside. 20% Hemp, 80% Cotton.

Cork Fabric

Cork is harvested from the cork oak tree, one of 425 species of oak prevalent in Mediterranean countries. Cork is an abundant natural and renewable resource.

Durable & Washable

This versatile and lightweight fabric is stain resistant, waterproof and yes, machine washable.

Visit our website to learn more about our certification & testing at www.bambuhome.com/pages/about-us.

Plant-Based Materials

Abundant Renewable Resources in China

FSC®-Certified 100% Bamboo

Transparency & Assurance

Raw Material Source

Our bamboo is sourced from naturally regenerative wild groves, not farmed plantations, emphasizing bamboo's role as a key component of regenerative agriculture. Unlike other crops, bamboo grows without disrupting food supplies and thrives without the need for fertilizers or pesticides. FSC® certification guarantees that our bamboo is sustainably harvested, making it safe for the planet, safe for the farmers who gather it for us, and safe for you and your family.

Safe & Non Toxic Utensils

Made By Hand

From our hands to yours, the bamboo utensil range is the core of our product line. These beautiful tools are each made from FSC®-certified 100% bamboo.

People are often surprised to learn the degree of handwork that goes into making a bambu® brand utensil.

What makes our utensils unique is that they are made from single pieces of organic bamboo. No glues. No lacquers. Simple and beautiful, and hand finished with organic natural seed oil.

These kitchen tools will hold up in a dishwasher, but are assured to last longer with hand washing.

Compostable Dinnerware

Elegant, Green Veneerware®

From nature to the table and back to nature. Veneerware® is the first and only disposable dinnerware made from organic bamboo. Our goal over 20 years ago was to create a beautiful disposable plate that was better for the environment.

Veneerware® is made from FSC®-certified 100% bamboo. Veneerware is also USDA Biobased certified (100%), and approved for composting (CMA tested & approved).

Although designed for single use, many customers enjoy multiple uses from our plates and cutlery. And that's great with us.

Only Veneerware® dinnerware is clean and consistent plate to plate without blemishes and color inconsistency. Accent any occasion with the natural elegance of Veneerware® bamboo dinnerware.

Handcrafted in small batches with the highest quality, all-natural ingredients from sustainable resources using, a proprietary blend of special aged Linseed Oil, pure Tung Oil, and pure Beeswax. It is biodegradable, non-ozone depleting and safe for all people. Not tested on animals.

Great for all types of wood and bamboo grains. Made in the USA. Packaged in glass.

Partnerships

We work together with organizations that are dedicated to restoring and protecting our environment. These organizations share our commitment to building healthy eco-systems. Below is a partial list of the groups that are supported by bambu®.

44

Rachel Speth: Fall River, Oregon

Back to Nature

With roots in the Pacific Northwest, we have a strong connection to and respect for the natural environment. Our appreciation for the natural world inspired us to leave our careers and focus on creating thoughtful products made from renewable resources.

Renewable Ideas®

Central to our core purpose, is creating product solutions that rely less on resource-intensive, petroleum-based resources and more on plentiful plant-based materials.

46

Our Company Values

We set out to create a business that reflected our personal values.

- Turn people onto renewable materials and discourage the use of plastic and other harmful materials
- Treat people fairly and provide opportunities to others
- Support organizations doing good work and give back to the causes that matter
- Create products that are affordable and accessible

Conservation

It's all connected. Limiting wasteful consumption makes a difference. And small changes can have profound effects on our eco-system. For every product sold, bambu® contributes to organizations protecting and restoring the natural environment through our membership in **1% for the Planet**.

We thank you for supporting what we do.

Rachel, Jeffrey and the bambu team.
