## Positive Impact of Product/Service

How would you describe the positive outcome for customers created by your product/service?

As the first digitally focused bank in Taiwan, O-Bank is committed to provide financial products and services for all the communities in Taiwan, especially for those who have been underserved by traditional banks for the past decades. In 2017, the Bank launched the first financial robot-advisory in Taiwan to provide inclusive investment opportunities to local underserved individuals by lowering the minimum investment threshold. Also, the Bank provided a series of preferential corporate banking products to purpose-driven enterprises such as social enterprises and certified B Corps in Taiwan. On the other hand, the Bank launched a charity affinity card platform since 2018 and has joined hands with 14 NPOs. By every consumption customer makes through the affinity cards, the Bank will donate 0.2% cashback benefits to the designated NPOs. To encourage green consumption, the Bank also launched the "Green Consumption Power@O-Bank" project since 2019, bringing together 30 social enterprises and B Corps to promote conscious consumption. Consumers using the Bank's debit cards for purchases from brands participating in green consumption get an extra cashback of 4.22% (as the Earth Day is on April 22), encouraging them to choose environmental- and social-friendly products as a priority and thus build a green living circle. In addition, O-Bank launched the Social Impact Program in late 2020. O-Bank invites customers to open time deposit accounts under the Social Impact Program, and the funds deposited in these special accounts are used solely for the specific purpose of backing microloans that will be provided with no processing fee and at low interest rates to help economically disadvantaged persons deal with financial emergencies. To understand and measure the influence of the Social Impact Program on society, in 2022 O-Bank adopted the Social Return on Investment (SROI) methodology. This methodology developed by Social Value UK gathers feedback from stakeholders through qualitative interviews and quantitative surveys, and calculations and analysis arrived at a SROI index of 5.61, meaning that every NT\$1 invested creates NT\$5.61 in social value. Furthermore, in 2022, O-Bank was the first in Taiwan to launch a "Consumer Spending Carbon Calculator" function that can be used to check the carbon footprint of card purchases. In this manner, O-Bank has joined with customers to achieve low-carbon lifestyles and intends to do our part to mitigate climate change. Moreover, O-Bank has launched the "O for YOU" New Taiwan Dollar demand savings deposit project with an annual interest rate of 1% to 5% since 2023. The applicable object of the project includes medium-low or low-income households, families in hardship, and those caring for a relative with disability. Through the project, O-Bank hopes to encourage economically disadvantaged groups to accumulate savings and help them to get their first pot of gold.

# Banking Description Clients Beneficiaries Of Products Or Services

Describe the beneficiaries or end-users of your products or services and how you characterize them as underserved.

O-Bank launched the first financial robot-advisory in Taiwan to provide inclusive investment opportunities to local underserved individuals by lowering the minimum investment threshold. In addition, O-Bank launched the Social Impact Program in late 2020. O-Bank invites customers to open time deposit accounts under the Social Impact Program, and the funds deposited in these special accounts are used solely for the specific purpose of backing microloans that will be provided with no processing fee and at low interest rates to help economically disadvantaged persons deal with financial emergencies. O-Bank in April 2021 further expanded eligibility to anyone in Taiwan holding government-issued proof of low income or medium-low income status. In October 2022, O-Bank further extended eligibility to those with proof of meeting the government's definition of "a family in hardship", and those caring for a relative with a certificate of disability. There is no processing fee, and the borrower will enjoy a 2-percent interest rate discount compared to the general annual rate. On the other hand, the Bank launched the projects, "Exclusive B Corp/Social Enterprise Demand Deposit Account" and "Exclusive B Corp Loan," offering better interest rates to B Corps and social enterprises for demand deposits made by them and fee discounts to B Corps for loan applications. As most of B Corps and social enterprises in Taiwan were MSMEs which have limited access to financial services, the Bank characterized them as underserved.

## Company Explanation Of Disclosure Item Flags

If you selected "Yes" to any of the "Disclosure Industries" listed above, please provide a detailed explanation of the company's involvement for each affirmative response:

If this does not apply to you, please enter "Does not apply" in the text area below.

Since O-Bank is a financial institution, the industries we selected "Yes" above are the industries to which our bank has credit transactions by the end of 2022, including animal Products or Services, fossil fuels, and mining industries which accounted for only 1.69%, 0.12%, and 0.08% of the bank's total credit balance at the end of 2022 respectively. In addition, in response to trends of low carbon transition, the Bank has formulated relevant regulations and commitments as follows. O-Bank has pledged that from 2023 forward we will no longer provide corporate finance, project financing, or investments to enterprises that derive more than 50% of their operating revenues from specified types of coal and unconventional extraction of oil and gas (unless such funds are used for sustainable development or transformation purposes); O-Bank has further pledged to withdraw by 2035 from related sectors, including the following: ● Enterprises that engage in specified types of coal mining, electric power enterprises that supply coalfired electricity, and infrastructure projects related to specified types of coal. ● Sectors and related infrastructure projects that involve tar sands, shale oil and gas, arctic oil and gas, ultra-deep-water oil and gas, and unconventional extractions of liquefied natural gas.

In 2019, O-Bank was one of the dozens of financial institutions that provided loans to the New Site Industries Group that produced forged documents in its loan application and was unable to repay these loans. The amount of losses incurred by O-Bank due to the fraud was estimated at NT\$600 million after deducting collateral. The Bank was fined NT\$2 million by the Financial Supervisory Commission then. In response to this, O-Bank immediately filed legal proceedings against New Site Industries Group and related parties. After conviction affirmed by the supreme court, the Bank has successively been repaid the allocation amount determined by the collateral auction, and the estimated recoverable amount is similar to the overdue loan. To prevent recurring of similar incidents, O-Bank has amended internal regulations on factoring and lending operations, strengthened procedures for reviewing, approving, and allocating loans, and undertaken an across-the-board examination of accounts receivable financing (factoring) cases already concluded as of the record date.
