This section asks about your environmental footprint to determine which questions are applicable later on in the assessment. It also identifies whether your company's product/service is designed to deliver a specific, material, positive environmental impact, and if so, opens the Environmental Impact Business Model section that is most applicable.

Type of Facilities

What kind of facilities does your business primarily operate in?

Your answers determine which future questions in the assessment are applicable to your company.

- Company-owned office space
- Leased office space
- Co-working Space
- Virtual or home offices

Environmental Business Model

Are your company's products/services or processes structured to restore or preserve the environment in any of the following ways? (Please note: the environmental impact of your day-to-day operations will be assessed in the remaining sections of the Environment Impact Area. This question is specifically asking about your products/services or innovative production processes.)

Answering affirmatively will opt you into additional sections of the B Impact Assessment with more specific questions about this Impact Business Model.

- Through an innovative manufacturing, wholesale or agriculture process which is designed to significantly reduce environmental impact compared to typical practices for the industry
- Through a product or service that preserves, conserves, or restores the environment or resources

Description of Positive Environmental Product / Service Impact

How would you describe the positive outcome for the environment created by your product/service?

Greenspeed provides a comprehensive assortment of sustainable cleaning products and innovative microfibre products. Greenspeed employs natural ingredients and minerals to create 100% efficient cleaning products. Ingredients are sourced locally, preferably from renewable resources. The cleaning agents have a minimal impact on the environment throughout their life cycle and are biodegradable. The green surfactants, or eco-surfactants, are more than capable of dealing with the most stubborn stains. The Cradle to Cradle detergents are produced using renewable energy sources. The splitting of the microfibre is optimised through an advanced procedure. Because of this, the microfibre products clean effectively using only minimal water and a limited amount of sustainable cleaning agents.

Points Available: 0.00

Environmental Product or Service Impact

Is the environmental impact you've described part of your products' or services' impact (excluding packaging), or is it a part of the way that your company operates?

Companies should earn revenue from the product or service that has an environmental impact. Please do not include pro bono efforts within this section.

- The impact is created by a revenue-generating product/service line (e.g. selling non-toxic cleaning products, sustainability consultancy)
- The impact is created by the company's daily operations (e.g. using non-toxic cleaning products in the company's headquarters) and not the core product/service

Points Available: 0.00

Environmental Product Benefits

In what way or ways does your product/service conserve the environment?

Please select ONE option per product line. You may select an additional option if your product line has two separate environmental attributes.

- Provides or is powered by renewable energy or cleaner-burning energy than market alternatives (e.g. solar panel manufacturers/installers, hybrid vehicles)
- Conserves or diverts resources (including energy, water, materials, etc.)
- Conserves or preserves the well-being of land and/or animals (e.g. land protection or reforestation services, sustainably harvested agricultural products)
- Reduces or is made of less toxic/hazardous substances (e.g. brownfield remediation services, organic certified food, non-toxic cleaners)
- Educates, measures, researches, or provides information to solve environmental problems (e.g. environmental consulting or auditing)
- None of the above

Resource Conservation Overview

Tell us more about how your product or service reduces energy, GHG emissions, water and/or waste.

The Re-belle microfibre cloth is made of 100% recycled PET and is fully recyclable. The circular cloth reduces waste and CO2. With 30.000 Re-belle microfibre cloths, you save enough CO2 to drive a car around the world. Our microfibre cloths work best with a spray technique, an ecologically responsible method that reduces water and detergent use. No carcinogenic dyes are used and water is used responsibly during production. Thanks to the use of Greenspeed microfibre cloths, grime is not just removed 3 times as fast, this method is also comfortable and convenient. If the right detergent and right wash programme are used, our microfibre cloths can be washed at least 500 times. Use C2C detergent. Greenspeed microfibre cloths maintain their shape and properties when re-used. Practically no microplastic emissions during the washing process. Greenspeed participated in a study by Weber & Leucht in 2018 to investigate this. The study has shown that Greenspeed microfibre cloths achieve an A+ score, which means they have a minimal impact or 10 times less than the average knitted cloth on the market.

Toxin / Pollution Reduction Overview

Tell us more about how your product or service reduces use of toxic or hazardous substances, prevents pollution or remediates discharges to air, land or water

At Greenspeed we have always taken the "green" approach – it's in our DNA! But can we make the circular economy in our business a reality? Challenge accepted! We are already leading the way and aiming for fully circular cleaning which means: DETERGENTS Renewable ingredients from vegetable and plant origins We use effective vegetable ingredients from renewable raw materials for our detergents. Plantplastic & 25% recycled plastic Greenspeed's bottles are not made from petroleum ingredients but consist of 75% sugar cane-based plastic and 25% recycled plastic. Green production with responsible water usage Our washing and cleaning agents are made in an ecological factory, using renewable energy and where water is used responsibly. Naturally efficient Greenspeed's powerful cleaning agents can handle the challenges of industrial and professional environments. They are extensively and thoroughly tested, clean hygienically and are extremely user-friendly. The easy colour coding and the clear icons immediately inform the user what the product is suitable for and how it is to be used. Minimum waste Our bottles are reusable and recyclable. Greenspeed offers highly concentrated formulas, e.g. a dose of 10ml per 5L water instead of the standard dose of 20ml per 5L, requiring 20% less packaging than a conventional formula. The correct dose of 10ml allows you to clean a surface of 19 tennis courts with 1L of our highly concentrated cleaning agent! Biodegradable Greenspeed detergents are fully and rapidly biodegradable, do not contain harmful toxic substances and have minimal impact on aquatic life! You need 46,605 less bathtubs of water to achieve the same environmental impact when compared to conventional detergents. MICROFIBRE Cleaning ecologically Clean ecologically and save on detergent and water by using Greenspeed microfibres. Our microfibre products and spray dispensers allow you to clean efficiently whilst using 90% less water than with a mop. Cleaning efficiently Greenspeed microfibre products remove stains three times faster than a conventional cloth with detergent* Greenspeed product development is based on quality, efficiency and user-friendliness: our products are light-weight and easy to hold, allowing a fast and comfortable clean! *Results: TNO research. Washable Greenspeed microfibre products can be washed twice as often the average microfibre cloth currently available on the market, increasing to a three-fold life expectancy if the right detergents and right wash programme are used! Re-use The Greenspeed microfibre products retain their quality and shape after multiple use, delivering real user-value!
