## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Other Disclosure Industries

Disclosure Questionnaire Statement	
<b>Topic</b>	Clients in Controversial and Ineligible Industries
<b>Summary of Issue</b>	<p>RITTWEGER und TEAM GmbH has clients in the following industries: Fossil Fuels</p> <p>The types of services/products offered to these clients include:</p> <ul style="list-style-type: none"><li>- Provides sustainability consulting and reporting services (CSRD, EU Taxonomy, CO<sub>2</sub> accounting) to energy sector clients.</li></ul>
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	In the last fiscal year, 0,4% of the company's annual revenue was from clients in the Fossil Fuels industry.
<b>Impact on Stakeholder(s)</b>	<p>Companies that work with clients in controversial industries can directly or indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>Companies offering certain types of services and products to controversial clients are required to have at minimum a grievance/complaints mechanism and a whistleblower protection policy.</p>
<b>Implemented Management Practices</b>	<p>B Lab has been able to verify that the company has the necessary mechanisms in place to manage the risks related to their business relationships with clients in controversial and ineligible industries, in line with B Lab's requirements (see link below). This includes:</p> <ul style="list-style-type: none"><li>- A mechanism for internal and external stakeholders to raise grievances;</li><li>- A policy that is shared with individuals who raise a grievance, containing information related to the grounds for accepting a grievance and how their grievance will be dealt with, as well as related timelines;</li><li>- A Whistleblower Policy that establishes the company's commitment to protecting whistleblower identity as well as the processes and controls in place to protect stakeholders who</li></ul>

	raise grievances from any form of retaliation.

<b>Other Management Comments</b>	<p>The core mission of RITTWEGGER + TEAM is to support clients in their transition away from dependence on fossil fuels toward low-carbon and circular economy business models by defining and implementing credible decarbonization pathways. Projects are accepted only if decarbonization is an explicit goal and there is a genuine willingness to transform.</p> <p>Accordingly, the company's services are designed to reduce negative impacts and drive credible transformation rather than maintain the status quo. This includes work on emissions accounting and reduction pathways, circular economy and material flow optimization, resource efficiency, sustainability reporting, and improvements in corporate governance.</p> <p>The company's consulting approach is evidence-based and grounded in recognized standards. It encompasses transparent communication of risks, limitations, trade-offs, and, where relevant, uncomfortable findings necessary for an honest assessment.</p> <p>RITTWEGGER + TEAM also sets clear boundaries when working with clients. It does not support projects aimed at justifying misleading sustainability claims, nor does it undertake work that would legitimize harmful business practices without a credible path to transformation.</p> <p>Through this approach, the company ensures that its services contribute to reducing negative impacts in the industries it serves.</p>
