

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE CATEGORY	Litigation or Arbitration
ISSUE DATE	10/13/2022 - ongoing
TOPIC	Class action complaint regarding Danone Waters of Americas (DWA) carbon neutral claims
SUMMARY OF ISSUE	Evian Natural Spring Water bottled water, manufactured and sold by Danone Waters of Americas were marketed as "carbon neutral". However, some consumers claim that the carbon-neutral attributes stated on the product's label and packaging were false and misleading. The plaintiffs state that would not have bought the products if there was not this indication of "carbon neutral".
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	Plaintiff seeks damages in excess of US\$5,000,000
IMPACT ON STAKEHOLDERS	Primary impact was financial impact for affected consumers.
RESOLUTION	The case is currently pending.
IMPLEMENTED MGT PRACTICES	The following is the Company's public statement issued in response to this lawsuit, which answers the additional questions posed: "evian® is deeply committed to sustainability. While we cannot comment on active litigation, each year we measure carbon emissions across all life cycle stages of an evian bottle, and we continuously strive to reduce that footprint. Our bottling site runs on 100% renewable energy, and we have reduced the site's absolute energy consumption by 28% since 2008. We partner with the Livelihoods Carbon Fund, which has planted 130 million trees so far, sequestering carbon emissions from the atmosphere. evian® products are certified carbon neutral to PAS 2060 by the Carbon Trust."
