Disclosure Report
Date Submitted: May 30th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Others - Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	<p>iCREATE is a creative agency providing branding related consultancy to clients.</p> <p>The company has had clients who are Whole-Life Insurance providers which is deemed a controversial industry by B Lab. The nature of the company's services provided to these clients are limited to promoting educational and voluntary projects.</p> <p>The services provided to the clients can be sold to other clients in different industries, including other both non-controversial and controversial industries, although it is tailored from client/industry to client/industry.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the fiscal year end of 2023, the company had generated less 33.8% of its total revenue from clients in the whole-life insurance industry.
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	iCREATE does not intend to work with clients that do not share their vision for sustainability and community building. However, when they do encounter prospective clients that are potentially high-risk in terms of social and environmental activities, they would not reject working with them, instead iCREATE would rather accept and help the client to contribute positively to the society and the market as a whole. If iCREATE believes that there are no improvements in terms of social and environmental performance of the high-risks clients, or if they seem unwilling to change, iCREATE would terminate the contract.
