

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

DISCLOSURE QUESTIONNAIRE CATEGORY	Tax Advisory Services
TOPIC	Provision of tax services
SUMMARY OF ISSUE	Revinn provides services related to financial and business management strategies and advice, including tax consulting services. Tax consultancy services cover the accounting and management of tax compliance for their clients as well as the consultancy and training of their clients' employees in tax matters.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	Approximately 25% of the company's revenue comes from tax services offered to startups and SMEs in Italy.
IMPACT ON STAKEHOLDERS	B Lab recognizes fair payment of taxes as a material business issue and has a Framework for Evaluating Tax Strategies for B Corp Certification. Given Revinn Srl limited scope of tax-related services in Italy only, its services are consistent with the principles that (1) the amount of overall taxes paid over time appropriately reflects the actual amount of income generated by the client, and (2) the amount of taxes paid over time in each jurisdiction appropriately reflects the actual operations of the client in that jurisdiction.
IMPLEMENTED MGT PRACTICES	Revinn claims all employees and collaborators sign the tax philosophy document, their code of ethics and the code of conduct. For tax related services, only registered chartered accountants are allowed to provide their expertise to Revinn's clients. These professionals are also required to sign the relevant deontological code, and they respond to governance body of the chartered accountants and to the public authorities. Revinn only provides tax services to clients based in Italy.
REPORT	Revinn's Tax Philosophy Statement
MANAGEMENT COMMENTS	Paying tax is often presented as a burden, but it shouldn't be. Not when considered against the huge array of public services it helps fund – from education, health and social care, to flood defence, roads, policing and defence. It also helps to counter financial inequalities and rebalance distorted economies. Where substantive stakes are held in private enterprises, then influence should be wielded to ensure that such businesses are exemplars of tax transparency and tax avoidance is shunned - e.g., no use of marketed schemes requiring disclosure under DOTAS regulations (Disclosure Of Tax Avoidance Schemes) or arrangements that might fall foul of the General Anti-Abuse Rule. Our Company can and should stand up for responsible tax conduct - doing what they can within existing frameworks and pledging to do more given the opportunity, as active supporters of international tax justice.
