

Brinkworth

Disclosure Report

Date Submitted: October 7th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒

Business in Conflict Zones	☐	☒
Child or Forced Labor	☐	☒
Negative Environmental Impact	☐	☒
Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	Brinkworth offers interior design services for retail environments and has served clients operating in the Recreational Marijuana industry over the last 5 years. The company has ceased working with clients in this industry since April 2024 and is committed to not engaging with this industry in the future. Services previously offered to clients in this industry can be sold to both clients in controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	Clients operating in the Recreational Marijuana industry represented 5% of the company's FY2023 revenue and on average 3.1% over the last 5 years. Brinkworth no longer earns revenue from clients in this industry
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	• The company's clients are required to be legally compliant in all respects to gain their license to operate. The company's services contribute to legal compliance mainly with respect to safety, security, building regulations, and other code compliances. • Brinkworth has a position on working with clients in sensitive industries; they review all potential clients and have clear protocols about refusing work from controversial industries, clients, or individuals. The company has a due diligence process carried out by their business director on all new companies and assesses both the company as well as ownership to identify potential "red flag" harmful practices. Brinkworth

	has turned down work from clients in both controversial as well as non-controversial industries based on these findings, including the recreational marijuana industry, tobacco-related issues, and a bad reputation for inappropriate behavior towards women.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Significant Layoffs of >20% of the Workforce

Brinkworth Design Limited experienced significant layoffs of more than 20% of the workforce within the last five years. Certified B Corps are required to make transparent when such practices have occurred.
