Disclosure Report

Date Submitted: March 28th, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category:

- **Alcohol**
- **Animal Products and Services**
- **Recalls**

Harris Farm Markets is involved in the following activities:

- 1) Production or sale of alcohol. Alcohol may have a negative impact on the health and well-being of individuals and their communities, particularly in cases of over-consumption, addiction, or under-age drinking.
- 2) Production or sale of animal products and services, meaning that they are more likely to have significant impacts on the environment and animal welfare.
- 3) Reported conducting 1 mandatory recall at the customer level and 121 voluntary withdrawals at the retail level in the past five years, representing <0.001% of the company's products for the same period. When a product is recalled, various stakeholders such as customers, suppliers, investors, commercial partners, and local communities may face negative impacts, including health and safety risks, financial losses, loss of trust, damage to credibility, and other inconveniences.

Certified B Corps are required to make transparent their involvement in such industries.
