

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE CATEGORY	Other
TOPIC	Clients in Controversial Issues
SUMMARY OF ISSUE	Admind is a branding agency that provides graphic design services, such as print editorial design, digital design, and presentation design, for clients in the Fossil fuel industry.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	Fossil Fuel Industry represents <3% of their total revenue for FY21.
IMPACT ON STAKEHOLDERS	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.
IMPLEMENTED MGT PRACTICES	Admind has one client in the fossil fuel industry and had worked with another one in the past 5 years. The services they offer to this client are related to designing materials connected to sustainability or with neutral impact. The company aims to promote a Conscious Branding approach, seeking sustainability, social impact, and environmentally friendly design in all the fields of its marketing, ways of working, and in growth areas. Also, the company has a strategy to become a ""Top of mind agency for conscious brands of the future"", currently investing effort to design in ways that positively impact the business of its clients in terms of social impact and sustainability. Admind monitors the cases where any doubts might appear in terms of environmental or any other dangers that the project might cause, aiming to verify if at any stage of the briefing any projects seem to be wrong or questionable in terms of harming the environment or the community. Therefore, Admind can refuse to execute the project if any element of the project is not compliant with ethical values and its business standards. The company has a Suppliers Code of Conduct with details of its approach.
