

Verstegen Spices & Sauces B.V.

Disclosure Report
Date Submitted: May 10th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Environmentally Intensive Industries

Topic	Water Intensive Industries
Summary of Issue	As a food manufacturer, Verstegen Spices & Sauces B.V. operates in an energy-intensive industry.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	100% of Verstegen Spices & Sauces B.V. 2023 revenue generated from sales of herbs & spices. The main source of water is from the tap water. Verstegen Spices & Sauces B.V. uses water in production mainly for the cleaning process and water acts as an ingredient in some sauces. However, the usage of water as ingredients is negligible as most of the products (Sauces) are oil-based.
Impact on Stakeholders	As a water intensive industry, the manufacturing industry poses risks such as water stress or depletion of local water sources if water use is not appropriately managed.
Implemented Management Practices	Verstegen Spices & Sauces B.V. has taken measures to reduce water consumption in their facilities. One initiative includes the installation of waterless urinals in the toilets, effectively minimizing water usage. Additionally, an innovative rainwater collection system has been implemented in the office building, specifically designed to supply water for sanitary facilities. Moreover, Verstegen Spices & Sauces B.V. has implemented an on-site wastewater treatment plant to manage the water used for cleaning purposes during production. This treatment plant ensures that the water is appropriately treated before being discharged into the sewerage system. These initiatives demonstrate Verstegen's commitment to sustainable water management practices.
