

Regents University London

Disclosure Report

Date Submitted: June 23rd, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒
Biodiversity Impacts	☐	☒
Chemicals	☐	☒
Disclosure Alcohol	☒	☐
Disclosure Firearms Weapons	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Alcohol

Regents University London is involved in the production or sale of alcohol. Alcohol may have a negative impact on the health and well-being of individuals and their communities, particularly in cases of over-consumption, addiction, or under-age drinking. Certified B Corps are required to make transparent their involvement in such industries.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Clients in Controversial Industries

Regents University London is currently involved or has had involvement within the last five years in providing services and/or products to companies in the following industries considered controversial by B Lab Global: For-profit higher education

While products and services to clients in controversial industries could help mitigate potential negative impacts or serve only as commonplace goods and services for the companies, they also could have the potential to enable the growth of the industry and indirectly contribute to its negative impacts. Certified B Corps are required to make transparent their involvement in such industries.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other

Issue Date	Ongoing
Topic	For Profit Higher Education
Summary of Issue	B Lab recognizes that for-profit higher education is controversial, and that a number of industry participants have questionable reputations. B Lab sees its role as the promotion of robust standards of industry-specific performance, expanded legal accountability, and public transparency that can be used by policymakers, investors, and the general public to make more informed decisions about which for profit high education institutions meet market demand while generating the greatest positive impact and best serving the public interest. We have created a specific set of standards to address issues unique to for-profit higher education companies: The Higher Education Addendum of the B Impact Assessment is the result of nearly 2 years of work with a distinguished group of industry experts and includes industry-specific metrics on: (1) Educational Models and Engagement: The extent to which the company is able to deliver long term sustained educational services and its engagement with the higher education and broader community to advance higher education and promote wellbeing (2) Recruiting, Marketing, and Transparency: The policies, practices, and results of the institution's recruiting practices to ensure accurate information and consumer protection (3) Student Outcomes: The extent to which the institution delivers positive outcomes for its enrollees, particularly for traditionally underrepresented groups, including their ability to progress to completion and achieve economic

	independence (4) Student Experience: The extent to which the institution delivers a positive student experience, including quality instruction and faculty and supportive and accessible student services, and external career and service opportunities
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	Regents University London currently has approximately 3,500 students.
Impact on Stakeholder(s)	Please see the Summary of Issue section.
Implemented Management Practices	Regents University London has met all requirements of The Higher Education Addendum listed in the Summary of Issues section above.
