

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

UPDATED AS OF: 07/28/2022

|--|--|
| DISCLOSURE QUESTIONNAIRE CATEGORY | Tax Advisory Services |
| TOPIC | Provision of services related to UK and US tax |
| SUMMARY OF ISSUE | Expatriate Tax Advisory Service Limited (ETASL) provides tax advisory services and preparation of tax returns for individuals with respect to UK and US tax, specifically ensuring that their clients comply with the tax legislation in force at any given time. |
| SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected) | Tax compliance work is an essential and interlinked part of the overall service the company offers, and 100% of the company's revenue comes from these accounting services. |
| IMPACT ON STAKEHOLDERS | B Lab recognizes payment of due taxes as a material business issue and has a Framework for Evaluating Tax Strategies for B Corp Certification. Given ETASL's limited scope of tax-related services for the UK and US tax systems only, its services are consistent with the principles that (1) the amount of overall taxes paid over time appropriately reflects the actual amount of income generated by ETASL's clients, and (2) the amount of taxes paid over time in each jurisdiction appropriately reflects the actual operations of the client in that jurisdiction. |
| IMPLEMENTED MGT PRACTICES | <p>ETASL only provides services to individual clients. They do not undertake corporate tax work.</p> <p>The company performs anti-money laundering checks and risk assessments on all clients as well as a detailed initial client interview. They only work with clients that are fully transparent with them.</p> |
