Disclosure Report

Date Submitted: October 27th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Biodiversity and/or Monoculture

Tikamoon is involved in activities that could affect local biodiversity, meaning that they are more likely to have significant impacts on the environment given its interference with the balance of local fauna and flora. Certified B Corps are required to make transparent their involvement in such practices.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Operations located in Conflict Zones

Topic	The company has suppliers located in Conflict Zones.
Summary of Issue	<p>Tikamoon is a furniture retailer. The company has had 3 long-term suppliers in Ukraine since 2021. Following the outbreak of the war, the company decided to discontinue partnerships with 2 of them. Tikamoon reported that the supplier's operations are located in an area not directly affected by the war.</p> <p>Ukraine is listed as a conflict zone in FY25 List of Fragile and Conflict-affected Situations and Global Conflict Tracker.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the last fiscal year, 0.23% of the company's expenses came from Ukraine.
Impact on Stakeholder(s)	<p>Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability.</p> <p>Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations are at risk.</p>
Implemented Management Practices	<p>All suppliers are required to sign and comply with the company's Supplier Code of Conduct, which sets out clear commitments on anti-corruption, human rights, labor standards, and environmental responsibility.</p> <p>The following are the policies and practices in place to ensure Tikamoon's operations are not tied to the conflict:</p> <ul style="list-style-type: none"> • The supplier is FSC Chain of Custody certified, ensuring full traceability of materials and responsible sourcing practices. Therefore, 100% of purchases are certified. • Have reduced the number of Ukrainian suppliers from three to one to minimize exposure to conflict-related risks, while maintaining support for a partner operating in a stable and safe

area.

- Given the current context, the company decided to suspend any new product developments with this supplier. A potential phase-out of the partnership is under consideration for 2026, depending on how the situation evolves.
- Despite the risks and travel challenges caused by the conflict, a member of the Quality Department managed to visit the production site twice since the beginning of the war. However, no formal on-site audit has been carried out during this period due to safety considerations.
- Supplier selection and monitoring are based on a review of third-party certifications (such as FSC CoC), compliance with Tikamoon's Supplier Code of Conduct, and alignment with their minimum social and environmental standards.
- They regularly reassess suppliers' compliance with these commitments to ensure that the company's operations and purchases are not linked to, or exacerbating, the ongoing conflict.
