

Collective Objective

Disclosure Report

Date Submitted: July 11th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒
Biodiversity Impacts	☐	☒
Chemicals	☐	☒
Disclosure Alcohol	☐	☒
Disclosure Firearms Weapons	☐	☒
Disclosure Mining	☐	☒
Disclosure Pornography	☐	☒
Disclosure Tobacco	☐	☒
Energy and Emissions Intensive Industries	☐	☒
Fossil fuels Gambling	☐	☒
Genetically Modified Organisms	☐	☒

Business in Conflict Zones	☐	☒
Child or Forced Labor	☐	☒
Negative Environmental Impact	☐	☒
Negative Social Impact	☐	☒
Other	☒	☐

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	Company is an advertising company that has served a client operating in the alcohol industry. Services to this client have included marketing and branding; all services that can be sold to both controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	1.75% of revenue in 2022 and 46% of revenue in 2021 comes from the alcohol industry.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company does due diligence when engaging a new client using a decision tree to assess whether to engage, this is informed by their client screening policy. Factors considered during the decision-making process include mission alignment with the Sustainable Development Goals, material involvement with high-risk controversial industries, and consideration of positive and negative impacts on stakeholders through the prospective client's business model and/or operational practices. The company does not require their client to sign a code of conduct.
