PRESS RELEASE - EMBARGO 1.11.2016

Stockholm, November 1st, 2016

On November 1<sup>st</sup> 2016, Entrypark launches the fourth edition of its Blind Applying campaign.

Top employers offer secret internships all over the world and students from every field and country apply with only their CV. Selected students can end up anywhere in the world, with their traveling & housing costs covered.

Blind Applying is an amazing way for students to explore the global working world. Applicants don't know which opportunity they are most suited for; their CV decides that for them!

"Blind Applying provides Bayer with a platform for meeting young diverse talent. It is exciting that the campaign offers access to highly motivated talents on a global level."  
Heiko Schomberg, Professional University and Talent Relations at Bayer

"Blind Applying offers students endless possibilities as soon as they apply with their CV's. What better time is there for students to discover their preferred career and be involved in a once-in-a-lifetime experience? The whole world is at their fingertips. We are offering the platform for them to discover both their career path and that world."  
Wanda Mlodzick-Bergendal of Entrypark

- During last year's campaign, over 10.000 applicants from more than 109 countries signed up
- Selected students had their internships in exciting locations around the world like New York, Detroit, Paris, Bangkok, Madrid, San Francisco and more
- On top of the 15 internships offered, more than 4000 applicants were presented with other opportunities and career events based on their profiles and interests

More than an internship program – it's a career adventure you will never forget!
