President/CEO
Vortex 1 Security
185 East Indiantown Road
Jupiter Florida 33477

Currently I am President/CEO of Vortex 1 Security. We specialize in home, business security and automation, CCTV and access control. We are one of Florida's largest Security Companies serving over 6000 plus customers. At Vortex Security, our philosophy is simple. We provide personal, friendly customer service combined with real security. Your safety and peace of mind is at the heart of our business.

Jupiter Reef Club

Issues of importance:

Esthetics and upkeep of the resort

Safety and security

Building maintenance

Projects current and ongoing (seawall)

Bio:

I am a 30 year resident of Jupiter and an owner of unit A3 week 28 for approximately 15 years and consider the Reef Club a hidden jewel. I believe my current and past experience can lend a hand in leading a new board to tackle issues and projects to improve the resort. The ongoing seawall issues have been very frustrating as a local owner and feel it should have been replaced in the beginning rather than band aid it, pay an assessment and then now have to pay another to replace it.

I am a current resident of Ocean Walk which is a gated community across the street from the resort for the past 20 years. I have served as past president of my community HOA implementing and overseeing many projects successfully. Being across the street from the resort, I have a constant set of eyes on it, monitoring the progress and feel as a local resident can be an asset to the board and most importantly to the Jupiter Reef Club and its unit owners.

I possess a strong command of business protocols and feel my 25 plus years of experience in leading and managing teams in various sectors of the financial, healthcare and security industries will bring a positive impact to the Jupiter Reef Club.

All the best,

Kevin Johnson
Unit Owner
