QUALITY OF MARES BRED BY SIRE / LEADERS BY CI AND CPI / YEARLING SALES REVIEW

Domestic Product
winning the H. Allen
Jerkens Memorial Stakes
at Saratoga Race Course

THE RISE OF PRACTICAL JOKE

By ERIC MITCHELL

Ashford Stud's Practical Joke, a grade 1-winning son of multiple leading sire Into Mischief, bred 277 mares this year, giving him the distinction of covering the largest book among all North American sires, according to The Jockey Club records.

A perennial runner-up by progeny earnings in the Blood-Horse sire standings behind Three Chimneys Farm's Gun Runner since these stallions' freshman year in 2021 and through their fourth-crop year in 2024, Practical Joke grabbed breeders' attention on multiple fronts during the 2023 racing season.

Practical Move delivered 2023's most significant achievement

by becoming Practical Joke's second North American grade 1 winner and first as a 3-year-old. The colt raced by Pierre and Leslie Amestoy with Roger Beasley won the Santa Anita Derby (G1) by a nose over Japanese stakes winner Mandarin Hero and defeated eventual Preakness Stakes (G1) winner National Treasure. Practical Move was one of five Northern Hemisphere graded stakes winners representing Practical Joke during the year, and the sire rose into the top 10 on the general leading sires list with more than \$12.35 million in progeny earnings. And yet, these graded stakes winners told only part of the tale.

Dividends are being returned from the Ashford stallion's

Skelly winning this year's King Cotton Stakes at Oaklawn Park

two shuttle seasons to Chile in 2018-19. Practical Joke sired an additional nine group winners in Chile during the 2022-23 racing season led by 2022-23 Chilean champion 2-year-old filly and two-time group 1 winner Richi and champion 2-year-old male Soqui.

To date, Practical Joke has sired 40 black-type winners, which include 29 graded/group winners. His progeny has earned more than \$37 million and average \$73,307 per starter.

As a grade 1 winner at 2 and 3, Practical Joke was among the most attractive new stallions entering stud in 2018. The producing quality of his first book of mares was the fourth-strongest of his sire class as measured by the Comparable Index, an earnings-based statistic similar to the Average Earnings Index. The AEI is a ratio of a sire's progeny average earnings compared with the average earnings of all runners in the same country during the same year, while the CI uses the average earnings from runners out of dams bred to a given sire but only for those runners by other sires. The CI indicates how good a book of mares are collectively as producers regardless of to whom they were bred.

The dams of Practical Joke's first crop rated a 1.52 CI behind the first book CIs for the late Arrogate (3.64), Gun Runner (3.48), and Mastery (2.92). Practical Joke's first foals more than lived up to their potential.

Practical Joke became the co-leading freshman sire of 2021 by number of black-type winners with six alongside sire crop leader Gun Runner. Additionally, Practical Joke ranked second in his freshman class by percentage of black-type winners (9%) and percentage of black-type performers (10.4%), among stallions with 20 runners or more.

More accomplishments followed as Practical Joke's

runners matured and subsequent crops started to compete. He remained ranked second by progeny earnings to Gun Runner through the stallions' second-, third-, and fourth-crop years.

Practical Joke's runners maintained their momentum this year. His standout performers include Domestic Product, who won the H. Allen Jerkens Memorial Stakes (G1), Dwyer Stakes (G3), and Tampa Bay Derby (G3) plus ran third in the Breeders' Cup Dirt Mile (G1); and, Skelly, who became the sire's second millionaire after winning consecutive editions of the Count Fleet Sprint Handicap (G3) and Lake Hamilton Stakes at Oaklawn Park inbetween finishing second in the Riyadh Dirt Sprint (G3) and Alfred G. Vanderbilt Handicap (G1).

Practical Joke's two seasons in Chile yielded a parlay to Coolmore's earlier success in South America with its late sire Scat Daddy, who sired 29 group winners that collected 11 championship titles in Chile, which included Horses of the Year Il Campione and Solaria. Out of Scat Daddy mares to date, Practical Joke has sired eight graded/group winners that besides group 1 winners Richi and Soqui include: El Oriente, 2022 champion 2-year-old male and group 1 winner; 2022 group 1 winner Berberisca; 2024 group 2 winner Ondera; 2023 group 3 winners Morricone and Banquerita; and, Mufasa, a group 3 winner in Chile who won this year's Vosburgh Stakes (G3) and set a track record Aug. 12 at Colonial Downs going seven furlongs in 1:19.86.

Other broodmare sires and their sons who have been successful crosses with Practical Joke also include Candy Ride, Indian Charlie, and Elusive Quality.

Practical Joke has sired three graded stakes winners out of Candy Ride mares—2022 Frizette Stakes (G1) winner Chocolate Gelato, and grade 3 and multiple stakes winners Shidabhuti and Money Supply.

Indian Charlie mares have produced 2023 Safely Kept Stakes winner Howl and Kaling, who was third in the 2022 Spinaway Stakes (G1). Skelly is out of a mare by Bwana Charlie, a son of Indian Charlie.

Daughters of Elusive Quality have produced 2023 Schuyerville Stakes (G3) winner Becky's Joker and multiple stakes winner Practicallyelusive along with three other stakes-placed winners Bourbon Heist, Leeloo, and Lexington Humor.

Practical Joke is well-positioned to retain his position in the top tier of North America's most successful sires. While most young sires might see an appreciable drop in their number of mares bred, particularly in their second through fourth seasons at stud, Practical Joke has consistently gotten strong support. He bred more than 200 mares in 2021-23 and his CI for these books never fell below 1.45.

In addition to covering the largest book of his career, Practical Joke's 2024 mares represent the highest quality bred to him in a given year with a 1.86 CI and a 2.37 Class Performance Index, which indicates the quality of the mares as racehorses. The pipeline to future success seems well primed. **MW**

QUALITY OF MARES BRED (FIRST FOALS IN 2025)

The following table lists stallions bred to their first crop of mares in 2024 and bred to 20 or more mares in 2024. Stallions are listed alphabetically. Farm is where the stallion stood at stud in 2024. Listed for each stallion are the number of mares bred during the 2024 breeding season, the number and percentage of unraced mares bred, and Comparable Index (CI) and Class Performance Index (CPI) for the mares bred in the 2024 breeding season. CI indicates the quality of mares as producers, and CPI indicates the racing quality of mares bred. Data are through Oct. 3, 2024.

QUALITY OF MARES BRED (min. 20 mares bred in 2024)

The following table lists stallions that have at least two years at stud and were bred to 20 or more mares in 2024. Stallions are listed alphabetically by stud fee range based on their 2024 fee; if a stallion was unlisted or private in 2024, the stallion was included in a fee range according to his most recent listed fee. Listed for each stallion are his first crop year, number of mares bred during the 2024 breeding season (percent change from 2023-24 in parentheses), the number and percentage of unraced mares bred, and 2023 mares bred (2024 live foal percentage in parentheses). '24 MB CI is the Comparable Index (CI) for all mares bred in 2024 with the percent change from 2023-24 in parentheses. '24 CI Dams is the CI for the dams of the stallions' 2024 foals. '24 MB CPI is the Class Performance Index (CPI) for all mares bred in 2024 with the percent change from 2023-24 in parentheses. '24 CPI Dams is the CPI for the dams of the stallions' 2024 foals. AEI and CI are lifetime figures. Data are through Oct. 3, 2024.

LEADING SIREs BY QUALITY OF YOUNG/MAIDEN MARES BRED

The following table lists stallion leaders by Class Performance Index (CPI) of young and maiden mares bred (Y/M mares)—those without foals of racing age in 2024. Stallions must have covered at least 20 mares in 2024 to be included. Stallions are arranged by 2024 stud fee range; if a stallion was unlisted or private in 2024, the stallion was included in a fee range according to his most recent listed fee. Listed for each stallion are the number of young/maiden mares bred in 2024 (percentage of all 2024 mares bred in parentheses); those young/maiden mares' average age and earnings; the CPI of all mares covered by the stallion in 2024; and the percentage difference in CPI between young/maiden and all amres bred. Data is through Oct. 3, 2024.

Stallion	FCY	'24 Y/M MB (% '24 MB)	Y/M Avg. Age	Y/M Avg. Earn.	Y/M CPI	'24 MB CPI	% Diff.	Stallion	FCY	'24 Y/M MB (% '24 MB)	Y/M Avg. Age	Y/M Avg. Earn.	Y/M CPI	'24 MB CPI	% Diff.

2024 YEARLING SALES STATISTICS BY SIRE

(MIN. 4 SOLD AT NORTH AMERICAN AUCTIONS)

The following table contains information for yearling sires that had at least four yearlings sold in North America in 2023. Data include the number offered and sold, average, median, and maximum yearling sale price. The percentage of profitable (% Prof.) horses is the percentage of horses offered that sold for more than two times the 2022 or 2024 stud fee plus an estimated \$20,000 for upkeep. Horses that don't sell because they did not meet a reserve are considered unprofitable. Rate of return (ROR) uses the same formula as profitability and shows the percentage gained or lost over the total cost. Both profitability and ROR take into account a 10% sale commission (for sale company and consignor). The auction data include all yearlings offered in the United States and Canada from July 1-Oct. 28, 2024. Three-year medians cover July 1-Oct. 28 of 2022-24.
