BMW Motorrad Presents the Urban Collection

- Light-colored soft luggage complementing the existing Black Collection.
- Includes tank bags, side cases, rear bags and backpack.
- Universal fit accessories, including the new CE 04 electric scooter,

Woodcliff Lake, NJ – May 25, 2022...Be it in day-to-day riding, on a long tour or on an adventure trip - for decades, the BMW Motorrad range of luggage has been offering perfect solutions when it comes to optimally stowing your gear. With the new Urban Collection, BMW Motorrad presents a new generation of tank bags, a backpack and side and rear bags alongside the existing Black Collection. Made of high-quality and easy-care materials (outer material 100% PA with TPU coating, lining 100% PES), they combine high durability and functionality with cool design.

Urban Collection Tank Bags

Available in different sizes and shapes, the three new tank bags in the Urban Collection cover almost all motorcycle-specific requirements. The **Tank Bag Urban Collection Large (GS)** (13 - 16 liters) is designed especially for motorcycles with steeply sloping tank shapes, while the **Tank Bag Urban Collection Large** (13 - 16 liters) was developed for motorcycles with semi-circular tank shapes. The **Tank Bag Urban Collection Small** (5 liters), is the third variant when less storage space is required.

Thanks to the anti-slip foam padding on the underside and fastening straps, the tank bags, which are equipped with removable waterproof inner bags, can be fastened easily and securely. Plug-in clasps at the front and rear also make refueling easier. Tethers can also be attached to the luggage rack or the pillion seat. All tank bags are equipped with a water-repellent and lockable two-way zipper on the main compartment, zippered lid pocket, cable aperture for a charging cable to the inside and colored inner lining for better overview. The Tank Bags Urban Collection Large / (GS) also offer a touch-capable, waterproof transparent compartment. Motorcycle-specific belt attachments are available separately for all three models.

Urban Collection Backpack

The **Urban Collection Backpack** with a volume of 20 liters is the ideal companion for a day trip or commuting to work. The waterproof main compartment with water-repellent, rubberized two-way zipper is equipped with a laptop compartment (up to 15"). Two

outer pockets offer practical storage space for things that need to be at hand quickly. A mesh pocket on the inside lid, colored lining to provide a better overview, a carrying handle and adjustable shoulder, chest and hip straps round off the range of functions. Reflective stripes provide improved visibility.

Urban Collection Side and Rear Bags

The **Side Bags Urban Collection Large** (15 liters) and **Urban Collection Small** (10 liters) each offer a waterproof main compartment, volumes that can be variably adjusted using compression straps, and reflective strips for improved visibility. Thanks to an ingenious quick-release system, the Urban Collection Large Side Bag can also be attached to the motorcycle without straps. In addition, it features a waterproof and removable inner bag, into which a padded 15" laptop compartment, key holder, compartment for smartphone, mesh compartment for drinking flask and a zipped compartment are integrated.

Thanks to their stylish design and stowable handles and large carry handle, the **Urban Collection Rear Bags Large** (50 – 60 liters) and **Urban Collection Small** (35 – 42 liters) can be used on or off the bike. The main compartment is lined with a colored lining and can accommodate a helmet thanks to the generous opening, while adjustable straps with buckles ensure a secure hold on the bike. Rear bags not approved for S 1000 RR and R nineT models.

BMW Group in America

BMW of North America, LLC has been present in the United States since 1975. Rolls-Royce Motor Cars NA, LLC began distributing vehicles in 2003.
