

## Boat Outfitters Trolling Motor Shaft Size Finder

### Instructions:

1. Click File then Print
2. In the Print Window Change the Size Options to Actual Size
3. Click OK to Print the Motor Shaft Size Finder
4. Compare the Size Finder Scale below to a ruler and verify that your Size Finder printed to the proper scale.
5. Cut out the Trolling Motor Shaft Size Finder along dotted lines
6. Starting at the arrow wrap the Size Finder around the shaft of your trolling motor keeping the top of the Size Finder aligned.
7. Once the Size Finder is wrapped tightly around your trolling motor shaft the arrow will align closely with the line that corresponds to your shaft diameter.
8. Record the diameter of your trolling motor shaft, and order your new trolling motor attachment with confidence.
