

## Things To Do

This region of Northern California is primarily known for its many vineyards and wine tastings, but there's a lot more to Sonoma County than just that: the Pacific Coast Highway, Redwood forests, river adventures, quaint little towns and beautiful beaches.

### Wine Tastings

Of course you can't go to Sonoma Wine Country and not drink wine! There are over 250 wineries in Sonoma County, many of them producing award winning bottles. No matter where you base yourself, you'll never be far from a winery, but here are a few that are well worth visiting:

- DeLoach Vineyards (1791 Olivet Rd, Santa Rosa)
