## CALIFORNIA'S MOST UNIQUE WINERY EXPERIENCES

By: Urmila Ramakrishnan

When it comes to wineries, California can be dramatic. Though there's not one singular theme that unifies these over-the-top tasting rooms, they are unique experiences to add to your Wine Bucket List.

Each of these wineries has a broad range. From wig-wearing Victorian tastings where you'll blend your own Zinfandel to spotting camels, these are some of the most interesting California wineries out there.

**DeLoach Vineyards:** For something genuinely bizarre at this Santa Rosa winery, opt for the M.F.S. blending experience, which allows you to blend your own Zinfandel while transporting you back to Victorian times in the Libertine Cellar. Those afraid of mannequins will be petrified as Victorian-clad men and women pepper the room, complete with large candelabras.
