December 23, 2016 - Marc André Gagnon

Explosion of bubbles during the holiday season!

The SAQ sells 25% of its sparkling wines during the period from December 6 to January 2.

Last year, 1,236,000 bottles of sparkling wine were sold during these 4 weeks.

December 31 alone accounted for 4% of sales for the year, says the SAQ.

Here are the best sparkling wine commented over the past few months.

### Louis Bouillot, Pearl Rare, Crémant de Bourgogne 2012

A sparkling dry rather fruity with delicate bubbles. (When I mention the bubbles is usually bubbles in the mouth. For the visual appearance of bubbles depends on the glass.)

This wine has lovely flavors of caramel and honey finish.

It is fairly consistent, long and pleasant to drink.

It will be tastier after getting slightly heated in the glass.

Pinot noir and chardonnay.

Alc 12%. Sugar 7.7 g / l.

Online (29) and in 38 stores.
