Best in Test sparkling 2016

by [Elke Jung](#) - December 15, 2016

SPARKLING WINE. Vinbanken have tried all sparkling wines at Systembolaget to find the favorites, the best sparkling wines in 2016.

Just like his colleague Anders Röttorps, [Best Champagne and sparkling 2016](#), I skip prosecco, that they as a group are simply too sweet when it should be peeled and mingle before dinner. Will be back with a prosecco update shortly for all "must-have".

Below is Vinbankens Top-10 list of suggested sparkling in the normal range. The ranking is in order of price, low to high. There are of course many good choices in the BS (order range), but when the company declared that the final delivery before Christmas already was December 9, advises us not to wine to order ... well, except for a wine to be added then I just could not resist!
