## Pinot Gris

Certified Sustainable  
California 2025

Celebrating 50 years of heritage, DeLoach Vineyards proudly crafts wines that capture the essence of California. Our Certified Sustainable California wines reflect our belief that responsible farming creates better wines, and a better future.

#### THE VINTAGE

The 2025 growing season in California's Clarksburg Delta unfolded with a cool spring and consistently mild summer, allowing for a long, even ripening period shaped by the region's maritime influences. Ample winter rainfall replenished soils, while the absence of extreme heat events preserved freshness and natural acidity. Steady conditions through harvest encouraged balanced fruit development, with white varieties like Pinot Gris showing vibrant aromatics, refined structure, and a precise, energetic profile reflective of the Delta's distinctive climate.

#### IN THE VINEYARD

Sourced from CSWA-certified sustainable vineyards in the Clarksburg Delta, this California Pinot Gris reflects the region's distinctive interplay of climate and water. Cooling morning fog and river-driven evening breezes preserve natural acidity, while warm daytime sun fosters a long, even ripening season, yielding balanced, expressive fruit. Fermented and aged in stainless steel without malolactic fermentation, the wine retains its vibrant character and crisp, refreshing finish.

#### WINEMAKER'S NOTES

Lifted and expressive, the 2025 Pinot Gris opens with bright aromas of citrus blossom, ripe pear, and white peach, underscored by a subtle mineral edge reflective of its Delta origins. The palate is vibrant and finely textured, with crisp acidity carrying notes of lemon zest, green apple, and a hint of melon. The finish is refreshing with a lingering touch of citrus and saline minerality.
