A beautifully seductive yet crisp finish rounds out this delectable, graceful sparkling wine.

The Surrealist by JCB portrays the experience of contrasting worlds: celebrating tradition & modernity, the real & the imagined, the past & the future, the consciousness of the self & the other, the inner & the outer worlds… Surrealism is the passage from one state to another, while also representing, for wine, the two facets of wine, the two colors of wine, the personalities of all our senses, the evocation of transformation, and the notion that time & space is limitless thanks to the elixir of freedom!
