

THE TOP 100 REDS OF NAPA VALLEY 2016

Wednesday, November 23, 2016

I couldn't have picked a better time to create a Top 100 list for Napa than in 2016. What a year it's been for America's most famous wine region, as most wines I scored were from the glorious 2012 and 2013 vintages. I tasted about 1,000 wines from Napa this year over four different trips. JamesSuckling.com is committed to the region and its unique wines and fantastic terroir and microclimates. We believe in the future of Napa wines in both America and abroad, particularly in Asia where I spend five months working each year and have two full-time staff in Hong Kong. That's why I also now live part of the year in St. Helena so that I can keep my hand on the region's pulse.
