2013 ESTATE VINEYARD PINOT NOIR

In the Vineyard

On February 3, 2010, Demeter USA, the only certification agent for Biodynamic® farms in the United States, certified the 17-acre estate vineyard and garden at DeLoach Vineyards, fully compliant with their standards for Demeter Biodynamic status. As one of only sixty-four wineries or vineyards in the U.S. with Demeter certified Biodynamic estate vineyards, DeLoach is among an elite group of sustainable wine grape growers committed to farming in parallel with the Earth's natural cycles.

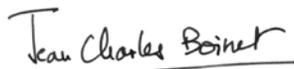

The 2013 vintage across the Russian River Valley was one of the earliest harvested vintages in years. A warm spring led to early bud break and created the perfect environment for flowering and fruit set. With warm days and cool nights, grape growers were able to maintain ideal acid levels with optimum, bright fruit flavors.

Conversations with the Winemaker

Planted on Huichica clay loam soil, our Estate has eight blocks of Pinot Noir with a unique combination of clone and rootstock. The 2013 Estate Pinot Noir is made using seven of our eight estate clones – 115, 828, Swan, La Tache, Calera and Mt. Eden and 23. This precise combination of clones showcases the ideal expression of the estate's terroir and were each fermented with native yeasts in open top fermenters, basket-pressed and aged on lees.

Tasting Notes

Our 2013 Estate Vineyard Pinot Noir aromatically opens with ripe red fruits heightened with hints of soft baking spice and candied orange peel. The deep aromas lead to enticing flavors of cheery cola balanced with the earthiness of Shitake mushroom. Its full body, and round, rich velvety feel lead to a long, satisfying finish.
