Tasting Notes: Napa Valley's southernmost region, Los Carneros, provides these exceptional chardonnay and pinot noir grapes which shine brightly and harmoniously.

In the glass, this wine is a shimmering pale salmon in color and delights the nose with strawberry, raspberry, orange zest, White flowers (jasmine) and a subtle minerality. On the palate, it's a journey from fruity juice notes of red berries and pineapple, followed by just a hint of yeast and finishing with a tart flavor burst.

The Surrealist by JCB portrays the experience of contrasting worlds: celebrating tradition & modernity, the real & the imagined, the past & the future, the consciousness of the self & the other, the inner & the outer worlds... Surrealism is the passage from one state to another, while also representing, for wine, the two facets of wine, the two colors of wine, the personalities of all our senses, the evocation of transformation, and the notion that time & space is limitless thanks to the elixir of freedom!
