Title Description

Book 1 in the MUMMY NATURE series of children's books. Peek through the microscope and down into a fantastic world of teeny tiny shapes, amazing colours and little friends who want to say – Hello. Who are these bacteria? Where do they live and what do they do all day? Meet Bacteria! is for little kids brimming with curiosity. It gives them their first basic notions of bacteria; a very interesting topic for children, seldom dealt with in children's books at this level. What we can learn: ...

Reviews

***** 5 star review by Bil Howard for Readers' Favorite "The Mummy Nature Series of children's books has been kicked off with a bang. Rebecca Bielawski begins the new and vibrant series with Meet Bacteria. Using rhyme and colorful illustrations, Rebecca introduces young children to bacteria, where they like to live, what they like to eat and how you can't see them with the naked eye. As she reveals some of the special things about bacteria, both good and bad, she is also sending a very simple ...

Title Description

BOOK 2 in the MUMMY NATURE series of children's books. Watch our happy, helpful friend the Honey Bee, always so busy and buzzy and find out why bees and flowers are such good friends. Illustrations using vivid colours include many real flower species which children may recognise from their garden or have seen growing in the wild, 3 of them are named at the end of the book too. The narrator shows us what these fascinating bugs have been getting up to in her garden. What we can learn: con...

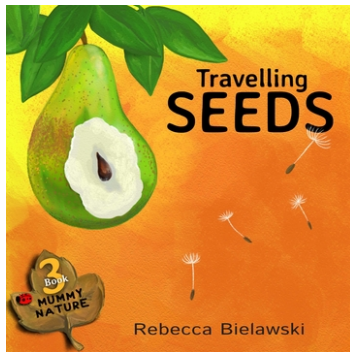

Reviews

***** 5 star review by Kristine Hall for Readers' Favorite In Bees Like Flowers by Rebecca Bielawski, children will read along and learn as our happy young narrator shows readers, in a very simple and non-threatening way, that bees are worthy of a closer look. Author Rebecca Bielawski uses rhyme along with beautiful illustrations to explain the process of pollination and where bees live, and she throws in a few gentle words of caution about stings. In a supplemental section at the end, insect...

Title Description

Book 3 in the MUMMY NATURE series of children's books. Discover how seeds travel from place to place. Our narrator excitedly tells us how she saw a pear fall from a tree in the meadow and how a cow came along and ate it. Then the seed began a journey. Where would the seed end up? Would it grow into a big tree with pears of its own? Using the pear and cow example we can stimulate more questions about seed dispersal and, like all the books in MUMMY NATURE series, Travelling Seeds can be used...

Reviews

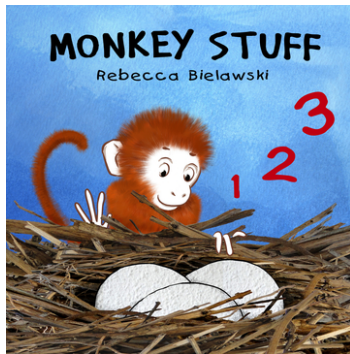

***** 5 star review by Jessyca Garcia for Readers' Favorite Travelling Seeds by Rebecca Bielawski is the third book in the Mummy Nature series. This book teaches kids about how far seeds travel and how plants grow from a little seed. Bielawski uses colorful illustrations to demonstrate the process of germination. I thought Travelling Seeds was a very educational book for children as well as adults. I read this book with my 4 year old and she liked the pictures, especially the cow. Bielawsk...
