The upright electric models feature:

- **DOE**—All residential storage models meet or exceed efficiency requirements of the Department of Energy, ASHRAE Standard 90.1 b (current standard) and the National Appliance Energy Conservation Act of 1987 recent amendment effective January 20, 2004 which supercedes all state and local efficiency requirements.

- **Fully Automatic Controls**—Fast acting surface-mount thermostats for automatic temperature control. Factory installed sensitive manual reset energy cutoff for safety to prevent overheating.

- **Direct Heat Transfer With Immersed Elements**—Transfers heat directly and efficiently to the water. Screw-in style.

- **Factory Installed Hydrojet® Total Performance System**—Cold water inlet sediment reducing device helps prevent sediment build up in tank. Increases first hour delivery of hot water while minimizing temperature build up in tank.

- **Vitraglas® Lining**—Bradford White tanks are lined with an exclusively engineered enamel formula that provides superior tank protection from the highly corrosive effects of hot water. This formula (Vitraglas®) is fused to the steel surface by firing at a temperature of over 1600°F (871°C).

- **2" Non-CFC Foam Insulation**—Covers the sides and top of the tank, reducing the amount of heat loss. This results in less energy consumption, improved operation efficiencies and jacket rigidity.

- **Water Connections**—3/4" NPT factory installed true dielectric fittings extend water heater life and eases installation (M-2-120R has 1" NPT dielectric waterway fittings).

- **Factory Installed Heat Traps**—Design incorporates a flexible disk that reduces heat loss in piping and eliminates the potential for noise generation (Except M-2-120R).

- **Protective Magnesium Anode Rod**—Provides added protection against corrosion for long trouble-free service.

- **Simultaneous and Non-Simultaneous Operation Available**—Simultaneous operation indicates when both elements (if equipped) are being heated at the same time. Non-Simultaneous operation indicates when one element is being heated at a time.

- **Voltages Available**—120V, 208V, 240V, 277V, 480V.

- **Single Phase or Three Phase Operation Available**—277V may only be wired for single phase operation.

- **T&P Relief Valve Included**—All models have special tapping on top of tank.

- **Low Restriction Brass Drain Valve**—Durable tamper proof design.

- **Design evaluated by ETL in accordance with Part 280.707(d) of HUD Mobile Home Construction and Safety Standards for Energy Efficiency.**

For more information on warranty, please visit www.bradfordwhite.com

For products installed in USA, Canada and Puerto Rico. Some states do not allow limitations on warranties. See complete copy of the warranty included with the heater.

MANUFACTURED UNDER ONE OR MORE OF THE FOLLOWING U.S. PATENTS: 5,954,492; 5,761,379; 5,943,984; 5,081,696; 5,988,117; 6,142,216; 5,199,385; 5,574,822; 5,372,185; 5,485,879; 5,277,171; 5,341,770; 5,660,165; 5,596,952; 5,682,666; 4,944,428; 5,023,031; 5,000,890; 4,669,448; 4,829,983; 4,808,356; 5,115,767; 5,092,519; 5,032,346; 4,416,222; 4,628,184; 4,861,968; 4,672,919; Re. 34,534; 7,270,087 B2. OTHER U.S. AND FOREIGN PATENT APPLICATIONS PENDING. CURRENT CANADIAN PATENTS: 1,272,914; 1,280,043; 1,289,832; 2,045,862; 2,092,105; 2,409,271. 1. Available with optional hand hole cleanout.
   - For 10 year models, change suffix “6” to “10”.
   - For single element models change suffix “D” to “S”.
   - (M-2-120 not available as a single element model).
2. *Based on 4500W/4500W, Non-Simultaneous operation.

**Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement.**

**Residential Electric Water Heater**

General

All models ETL listed. These heaters are wired inter-locking (Non-Simultaneous, Single Phase) 240V with two 4500W elements, unless otherwise specified. All water and electrical connections are 3/4” NPT (19mm), 120 gallon model has 1” (25mm) NPT. All models certified at 300 psi test pressure (2068 kPa) and 150 psi working pressure (1034 kPa).
