Boulder, CO
github.com/brandonc

Dark horse engineering leader who consistently delivers excellent DX/UX. Exceptional at full stack web application development (Go, Ruby, Typescript) and building trust within diverse teams. More core competencies include: http, application architecture, devops and CI/CD, API design, process automation, software development planning, software testing, and cloud native application development.

Work History

HashiCorp

Senior Engineer II — Mar 23 - Present

Tech lead for a remote team specializing in CLI workflows for Terraform Cloud. I'm engaged with the design, planning, and execution of initiatives that are meant to simplify the experience of developers using Terraform Cloud in CI pipelines and on the command line.

Senior Engineer — August 21 - Mar 23

Full stack engineer focused on building Terraform Cloud

Tackle.io

Senior Software Engineer — Jan 21 - August 21

Platform engineer focused on scaling and simplifying a fast-growing hybrid cloud marketplace solution. I planned and executed transformational improvements in the core platform to enhance stability, DX, and extensibility.

D2iQ (Formerly Mesosphere)

Senior Software Engineer — Sept 18 - Dec 20

Tech lead for a remote team focused on building the D2iQ Kubernetes Platform UI and previously the DC/OS UI. Primarily, I am concerned with planning, executing, and releasing full stack product features powering the leading independent Kubernetes enterprise platform.

Kapost

Software Architect — Jul 13 - Sept 18, Boulder, CO

Planned, researched, and executed long-term engineering initiatives, with a focus on cross-product capabilities and developer productivity.

As Tech Lead Manager, mentored a team in the areas of software architecture design, code review feedback, productivity, coding style, and system health.

Mondo Robot

Senior Software Developer — July 08 - July 13, Boulder, CO

Worked closely with designers to develop web apps, games, prototypes, and other custom software for high-volume, high-profile brands with this agency.
